On behalf of the staff at Agape B.E.A.T Camp, we'd like to take a moment to say thank you again for your loyalty and support. The Covid-19 Pandemic has been unlike anything we've ever experienced. We're dedicated to evolving with our new normal to continue to serve your child in a fun, fabulous and safe way!

We can't say this enough - your child's health and safety is our priority. We will operate under the guidelines of the CDC [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus), the State of Maryland [md/coronavirus](https://www.maryland.gov/department-of-health-and-general-services/coronavirus) and Baltimore County Government [COVID-19 Coronavirus Updates and Guidance](https://www.baltimorecountymd.gov/index.cfm?menuid=COVID-19-Coronavirus-Updates-and-Guidance) to ensure we are in compliance with the most current health and safety practices. We have new systems and policies in place to ensure we do our part in preventing the spread of the Coronavirus. We have been trained on the Coronavirus, certificates are located at the campsite.

Listed below are the details of how we will operate as a unit. Please read and take note of the expectations to help to reduce the spread of communicable diseases and a safe covid free summer experience at Agape B.E.A.T Camp.

Snap Shot of Covid-19 procedures and plan:

- **Check In**

- Covid-19 Health Screening Form Completed before arrival (Weekly)
- Protective equipment check - mask (shield and gloves by preference)
- 1 Parent contactless sign in
- Camper temperature check and sanitize hands
- Campers will place belongings in their designated cubbies.

- **Social Distancing / Prevention**

- Campers work area will be 3 feet apart
- Activities will be rotated by Boss groups to limit mixing groups when possible.

Gwynn Oak, MD 21207
443-801-4584

www.agapebusinessllc.com

- Assigned seating Boss Chics, Boss Girls, Boss Babies will have their own assigned area (no more than 5 campers per group).
- Staff will be required to wear face mask

- **Cleanliness / Disinfecting / Sanitation**

- We will use EPA grade disinfectants
- Common areas will be cleaned and sanitized frequently
- Each camper will have their own personal supplies and equipment as needed for the duration of the camp
- Mandatory designated hand washing times throughout the day
- Supply hand washing supplies, sanitizer wipes and no touch / foot pedal trash cans
- Daily deep clean at the close of camp day

- **Visitors, Field Trips and Summer Showcase**

- Limit any non essential visitors
- Avoid activities and field trips that cannot provide social distancing
- Opt for an end of camp outdoor showcase to provide social distancing space with limited invitees.

- **Agape B.E.A.T Camp will:**

- Make sure staff is trained on all safety protocols mentioned here as well as all camp health plans (available for review at the campsite).
- Supply PPE supplies including hand sanitizer, gloves, and face mask and face shields as needed
- Actively encourage staff to stay home if they suspect illness, have symptoms, or have been exposed to Covid-19
- Conduct weekly meetings with staff to ensure the policies, protocol and procedure put in place are maintained.

- **Parents will:**

- ❑ Complete Covid-19 Health Screening Form weekly before the start of camp.
- ❑ Keep camper home when appropriate
 - Symptoms of cough, fever and shortness of breath
 - High temperature
 - Camper express feeling sick
 - Pledge to certify that your child or no member of your household is or has been sick recently.
- ❑ Educate campers at home on the importance of wearing their mask and social distancing
- ❑ Speak with camper at home about avoiding sharing electronic devices, food and other personal items brought from home

PROTOCOL IF SOMEONE GETS SICK DURING CAMP TIME

If a camper or staff members begins to exhibit signs or symptoms such as fever, cough, or shortness of breath:

1. The camper will immediately be separated and have to wait in the designated area per our Health Plan as required by Maryland Youth Camps. The parent will be notified and required to pick their child up. Staff must leave immediately, follow the resource guide to get tested and properly isolate and quarantine. *follow the CDC [Centers for Disease Control and Prevention](https://www.cdc.gov) guidance for caring for yourself and others.
2. In accordance with the state and local laws and regulations, camp administrators will notify local health officials, staff, and families immediately of any case of COVID-19 while maintaining confidentiality in accordance with the Covid-19 and HIPAA disclosures. We will advise those who have had close contact with

a person diagnosed with COVID-19 to stay home, self-monitor for symptoms, and follow CDC guidance if symptoms develop.

3. We will close off areas used by a sick person for at least 24 hours and will not use the area or equipment until after professional cleaning, disinfecting and sanitizing has taken place.
4. Campers or staff members should not return to the camp site until they have met CDC's criteria to discontinue home isolation. Proof of a negative covid-19 test may be required.
5. If an outbreak of the Covid-19 virus happens and the campsite itself needs to be shut down. Parents will be reimbursed for the days they paid for and had to miss due to no fault of their own.

Disclaimer

Although the above protocols will be implemented, Agape B.E.A.T Camp will be taking many more health precautions this summer in light of COVID-19. Precautions during camp include daily health screenings, encouraging and enforcing more handwashing, more use of hand sanitizers, more wiping down of doorknobs, materials, bathrooms, and high use areas with antibacterial wipes, etc. We plan to send campers and staff home that have a high temperature. But even taking these and other extra precautions, we all may be exposed to the risk of contracting communicable illnesses due to the Covid-19 Pandemic.

Ultimately it is up to each individual family to decide as to whether Agape B.E.A.T Camp is a viable option and/or a mitigated risk that they are willing to move forward with. This document serves as a brief summary/overview of the policies, procedures, and protocols that have been developed to help mitigate communicable disease and COVID-19. These are based on recommendations from the CDC as well as local state and federal government agencies.
